## **EIOPA**

### **Calls for sound supervisory practices in registering or authorising IORPs to foster a level-playing field across the EU**

*12 November 2020*

The European Insurance and Occupational Pensions Authority ("EIOPA") published a supervisory statement on the sound supervisory practices for registering or authorising Institutions for Occupational Retirement Provision ("IORPs"), including the assessment of suitability for cross-border activities. The main aim of the supervisory statement is

to ensure that IORPs operating cross-border do it under prudent conditions, regardless of the different authorisation or registration regimes. This will foster a level-playing field across the European Union conducive to an internal market for IORPs and ensure adequate protection of the members and beneficiaries. This objective is achieved through supervisory convergence of currently divergent practices and avoiding risks of supervisory arbitrage after the implementation of IORP II Directive. ### **The impact of the ERCOT solar boom**

*10 November 2020*

"The U.S. is seeing a boom in solar generation capacity and no market will be more affected by this than the Electric Reliability Council of Texas ("ERCOT") power market. ERCOT has been home to a large build-out of wind turbines over the last 10 years, but attention is now turning to solar. BloombergNEF expects wind and solar capacity additions in Texas through 2025. 2020 has been a great year, but 2021 will see additions of almost 6GW of new solar capacity."
