Common deficiencies and best practice standards identified through on-site inspections regarding certain aspects of the AIFM governance

22 October 2020

The Cyprus Securities and Exchange Commission ("CySEC") has proceeded (through on-site inspections) to evaluate the policies/procedures established and implemented by AIFMs regarding their compliance with some operational aspects relating to the organisational requirements and the delegation of functions ("the Inspections"). During the inspections, CySEC found that certain best practice standards were being implemented. It also found common deficiencies and/or omissions it wishes to draw all AIFMs' attention to ,

despite the fact that the Inspections only covered a sample of AIFMs authorised pursuant to section 8 of the Alternative Investment Fund Managers Law, as in force under number 56(I)/2013 ("the Law"). The circular lists CySEC's findings and invites all AIFMs to evaluate their compliance with the relevant governance requirements and to take corrective actions where relevant, by taking into account the principle of proportionality and the relevant regulations.
